

Student Graduation Rate Template – Single Campus September 2025

In order to be in compliance with the 6th edition accreditation standard A3.11i, the program must complete the **ARC-PA Student Graduation Rate TEMPLATE** below with its most current information. This completed table must be published and readily available to enrolled and prospective students.

Standard A3.11 The program *publishes* and makes *readily available* to enrolled and *prospective students* current program information, including:

- i) current annual student graduation rate information, on the table provided by the ARC-PA, no later than April 1st (4/1) of each year.

Completing the ARC-PA Student Graduation Rate Template:

- Class of: insert year class cohort will complete the program.
- Entering class size
 - Number of students newly enrolled for the admission cycle **PLUS** number of students who are reentering from a different cohort.
- Attrition rate calculation: Number of students who attrited from cohort (decelerated + withdrawals + dismissals) divided by the (entering class size + number joining class cohort).
- Graduation rate calculation: Number of cohort graduates divided by the (entering class size + number joining class cohort).
- “Comments” are not required but may provide supplemental narrative to enhance understanding of the data presented.

Publishing the ARC-PA Student Graduation Rate Template:

- The completed table must be published without any edits beyond inserting your program’s most updated data.
- You may publish the Attrition Table through ‘copy’ and ‘paste’ or by saving the table as a separate file that is attached to your program’s website.
- Some program websites will not accept an upload of the table or an image of the table. In this case, the program may recreate the table using its web design system in a manner that resembles the ARC-PA table. Contact Accreditation Services with questions.
- The ARC-PA directions for table completion are not required to be published.
- This table is the minimum information that needs to be published according to standard A3.11i. Programs may provide additional information as long as that information accurately reflects the program offered (standard A3.10)

Note: The attrition calculation for this table does not reflect the ARC-PA definition of attrition. This data is intended for public viewing to protect student identity in sensitive cases. Programs should refer to the ARC-PA glossary definition of ‘attrition’ when completing accreditation application materials.

ARC-PA Student Graduation Rate TEMPLATE

	Graduated Classes		
	Class of 20 23	Class of 20 24	Class of 20 25
Maximum entering class size (as approved by ARC-PA)	54	54	54
Entering class size	54	54	54
Graduates	51	46	44
* Attrition rate	5.6%	14.8%	18.5%
**Graduation rate	94.4%	85.2%	81.5%

Comments: Starting with the Class of 2024, the QU PA Program implemented a new deceleration policy to promote long-term retention. Students have a one-time deceleration option to move to the next cohort. This policy promotes student wellness and success by allowing those who were struggling to reset with time to reflect, change study habits, gather foundational knowledge, and promote mental and physical wellness without the pressure of a fast-paced and rigorous curriculum. In addition, the program has implemented more personalized advising and success coaching for students that may need extra support. The above table reflects attrition secondary to dismissal, withdrawal, and deceleration. For further information, please see the QU PA Program website "Program Goals"; Goal 1 provides further information regarding attrition.

*Attrition rate calculation: Number of students who attrited from cohort (decelerated + withdrawals + dismissals) divided by the (entering class size + number joining class cohort).

**Graduation rate calculation: Number of cohort graduates divided by the (entering class size + number joining class cohort).
